

# Endeavour Magnet Elementary School, Brevard County, FL

A FAILING SCHOOL USES CLASSWORKS IN THEIR REORGANIZATION STRATEGY

Endeavour Magnet Elementary 3rd Grade  
FCAT Scores

“Classworks allows kids to work at their own personal level, regardless of whether that happens to be below or above grade level. It starts them where they need to be, and takes them where they can go. No matter what level they are, kids are challenged and empowered.”

– Debi Pringle  
Magnet School Coordinator, Endeavour Elementary School

**Challenge:** Endeavour Magnet Elementary School, located on the Space Coast near Kennedy Space Center in Brevard County, Florida, was given an “F” grade in 2001. Turning this school around and making a mark as an academic leader would require commitment from the school and community.

**Goal:**

- Use reorganization as a way to create a long-term turnaround in academic performance
- Increase FCAT scores school-wide by engaging students and inspiring them to learn
- Improve the low state ranking and build toward a higher school grade

**Action Plan:** As part of their reorganization, Endeavour turned to Classworks, purchased district-wide by Brevard County in 2003. They immersed students in technology and used resources and leadership to fully integrate Classworks into the academic improvement plan, including individualized instruction for every student in math and reading labs as well as the classroom.

**Results:**

- Endeavour has steadily increased its school grade, with a “B” for the first time in 2008
- This school was named one of the top 100 most improved schools in Florida
- They recorded the largest improvements in reading and math FCAT scores of any school in the district
- Grade three scores jumped 38 points in reading and 35 points in math – the biggest jump in the history of the school
